

PhoenixTeam

We are mortgage technology.

PhoenixTeam is a women-owned small business that provides **mortgage technology solutions to improve the home loan experience for borrowers** and helps financial institutions, technology providers, and government agencies achieve their desired outcomes. With a focus exclusively on the mortgage industry, we delight clients and deliver better business solutions through technology implementation excellence, while never losing sight of our **vision to bring joy and purpose to software development.**

Our team **uses empathy and service to deliver value at enterprise scale with mortgage and banking technology.** That is our mission. We thrive on tackling the most challenging problems while still **staying true to our values.**

We keep promises. We meet schedules. We own our results.

Our "Special Sauce"

At Phoenix, we embed ourselves as trusted members and advisors within our clients' ecosystem. We are an intellectually curious group of folks who are constantly learning from industry thought leaders as well as our unique experiences with our clients. We leverage that knowledge to develop value-driven, creative alternatives and techniques to solve our clients' hardest problems and apply those techniques to meet our clients' goals. This is our "special sauce."

We deliver better mortgage technology outcomes.

Leadership Disciplines:

At PhoenixTeam, our mission is to deliver our clients value at scale. With an exclusive focus on the mortgage industry, we delight our clients and deliver value through technology implementation. To achieve this, our team disciplines establish standards of professional excellence in their respective domains and guide professional development within our own organization.

Salesforce Leadership

We are experts in the consumer lending and financial services industry. We amaze Clients by delivering a solution within a matter of weeks, allowing us to iterate, refine or tackle new high-value Salesforce features quickly. Combine our industry knowledge with our deep Salesforce expertise and you have a machine of folks that get in and deliver value fast with little to no ramp up time.

- “Art of the possible”
- “Salesforce first” methodology and mindset
- Lock in on needle movers
- Business vision meet technical strategy

Product Leadership

We are experts in discovering and validating new opportunities quickly and abandoning bad ideas even faster. Whether we are helping clients expand their Salesforce product capabilities, enhance existing products, or discover the fit of net new transformational offerings, we focus on value all the way and help our clients do the same.

- Product Management
- Product Development
- Product Design

Engineering & Analytics Leadership

We are experts in digging deep into and developing complex code and analytics. We guide our clients on how to develop and deploy small, iterative, chunks of value fast and error free.

- Data Mapping Analysis
- Business Conditionality
- Transformation Logic
- Solution Architecture

Quality Assurance Leadership

No code is good code if it does not work as expected. Our experts educate and lead our clients to understand the value of early and often testing, particularly, complex end-to-end testing.

- Test Case Development
- Test Strategy and Plan Creation
- Test Plan Execution
- End-to-End Testing Leadership
- Production Issue Management and Resolution

Training & Coaching Leadership

We are experts in creating and delivering custom training materials and content to ensure that the end users have a complete and comprehensive understanding of the new product and its value.

- Training Strategy and Plan Creation
- Custom Training Delivery
- Custom Training Documentation
- Facilitation and Advisory Support

Implementation Leadership

It's all about execution! We are experts in using innovative Agile approaches to implement value, and attain adoption, even on complex Salesforce implementations. We do this with assured quality and certainty.

- Implementation Schedule Plan and Management
- Lender Engagement Communication and Support
- Executive Communication
- RAID Log Management
- Blocker Management

Testimonials:

We are customer focused. We think about the customers’ desired outcomes and align our work to what they need. We avoid overpowering the customer. We listen. We incorporate our customers’ culture, colors, and style into our work.

What our clients say about us.

““

Engineering & Analytics Leadership

“The value PhoenixTeam brings to every level of Technology Architecture is almost irreplaceable. They have earned our trust to handle our biggest and most impactful initiatives and have truly become members of the team. PhoenixTeam has made a huge impact at our organization, helping deliver a number of key initiatives and steering our technology strategy in the right direction.”
